

Medicare Supplement Rate Adjustments

Rates will be adjusted in Mississippi on 12/01/2021.

Premium rates are guaranteed for the first year a policy is in force. Letters to existing policy holders whose policies have been in force for more than one year will be mailed from our office and will explain that rate increases will take effect after the required notification period has been met.

All New Business applications signed and dated before or on the day prior to effective dates should use the current premiums. Applications signed and dated on or after each state's respective effective date must use the new premium rates.

For producer use only. Not for use by the general public.
