To: All Western United Life Medicare Supplement Agents in Texas

Re: Revised Application

The Western United Life Medicare Supplement application in Texas has been updated in accordance to the **MACRA 2020** changes.

Texas is the only state where we are required to start using the application **effective 07/01/2019**. Any applications with a signature date of 07/01/2019 and on will need to be written on the updated TX application.

The biggest change is the plan choice section. We wanted to make it easy for insureds and agents to know what plan choices were available to them based on the MACRA updates. We also removed claim number and replaced it with MBI#, as everyone is now being assigned an MBI#.

The updated app will go live on the web 07/01/2019.

For producer use only. Not for use by the general public.
